## Frequently Asked Questions

Q: If I get a CD, what else do I need to view or print the project?

A: To view documents on the CD, you will need a Pentium PC running Windows 95, 98, or NT with a monitor and a CD reader. For a hard copy, you will need a compatible printer or plotter. PostScript printers perform best. For other suggestions on printing .PDF files, refer to Adobe FAQ's at <http://www.adobe.com/supportservice/custsupport/SOLUTIONS/topissuesacr.htm>.

Q: How can I view a **pdf** file?

A: You will need to install the Adobe Acrobat Reader. You may download a free copy of the Acrobat Reader at <http://www.adobe.com/products/acrobat/readermain.html>

Q: Where can I get printed copies of the solicitation?

A: Many commercial printers can print paper copies from the CD. Check the list of registered bidders for the specific solicitation to see if any printing companies have obtained copies of the CD ROM. Also, a partial list of commercial printers is located at <http://tsn.wes.army.mil>.

Q: How will I find out about amendments?

A: Amendments will be posted on this site. You are responsible for checking the web site periodically and downloading amendments. You will be required to acknowledge receipt of amendments with your bid or proposal. We will not mail or fax paper copies of amendments. In the future, as a matter of courtesy, we will attempt to send notification by e-mail to those who register and give their e-mail address.

Q: Can I save **pdf** files?

A: Yes. There are two ways to save a pdf file. With Netscape Navigator, select EDIT > Preferences (or "AcroRd32") > Select "Save as this type". This will cause the file to be saved as a pdf file. Next time you click on a pdf file, you will want to save the file to your hard drive.

With Microsoft Internet Explorer, just "Right-Click" on the pdf file to save the file to your hard drive.

Issue

Netscape Navigator viewer (i.e., Acrobat) will not save the file to your hard drive.

Detail

The Acrobat viewer's "Allow background downloading of entire file" option is not selected.

Solution

Select the Acrobat viewer's "Allow background downloading of entire file" option:

1. Open the Acrobat viewer.
2. Choose File > Preferences > General.
3. Select "Allow background downloading of entire file," then click OK.

Additional Information

When background downloading is not enabled, an Acrobat viewer will load only the first page of a
